

# Z. Strip SG/72

## Plastic sealing tape

### Description

**Z.STRIP SG 72** is a permanently plastic sealing strip, not hardening, tacky, compressible and ready to use in a variety of cross sections, adaptable to any shape or size of joint. Light resistant and water repellent, assures water and air seal to joints between glass, metal and wood.

### USES

Assembling of household appliances  
For sealing overlap joints between plates  
Mechanics  
For sealing air conditioning systems

### CHARACTERISTICS

<b>Base Material:</b>	: polyisobuthylene
<b>Packaging</b>	: strips in a variety of rectangular or round cross-sections, supplied in reels protected by a transparent plastic film.
<b>Colours</b>	: grey, black
<b>Adhesion</b>	: good to glass, metals, woods, plastics and painted surfaces
<b>Ageing</b>	: excellent
<b>Water absorption</b>	: negligible

### TECHNICAL DATA

- Non-volatile content** : : 100%
- Penetration at 20°-26°C (300 g cone)** : 6,5-9 mm.
- Resistance to temperature** : good in the range -20°C+70°C
- Value valid as product supply specification upon leaving the factory

### METHOD OF USE

**Surface preparation:** the surfaces must be clean, dry and free from dust and grease.

**Joint dimensions:** no limits. Cross section of strip must outsize slightly the joint one.

**Application of sealing strip:** apply the strip to the substrate, pressing lightly, then remove the protection and assemble the other component of the joint in position. Owing to its plastic characteristics, the sealing strip should always remain under slight compression. The sealing strip can be easily moulded and used as filler of any dimension.

**Application temperature:** over + 10°C

## Technical Data Sheet

### Z. Strip SG/72

#### STORAGE STABILITY

12 months from the date of manufacture if sealant is kept in the original sealed pack at a temperature under 25°C.
