

# Z. Strip SG/72A

Plastic butyl sealant

---

## Description

**SG 72/A** is a permanently plastic, tacky and water repellent sealant. A mouldable and flexible mass which can be adapted to joints and hollows of any size and dimension.

---

## Uses

for filling holes in bodywork  
for filling holes in metal frames  
for sealing holes and cracks to avoid the leakage of polyurethane foam, in sandwich panels and shop refrigerators

---

## Characteristics

<b>Base Material</b>	: polyisobuthylene
<b>Packaging</b>	: strips in a variety of flat or round cross-sections, supplied in reels containing parallel strips protected by a transparent plastic film.
<b>Colours</b>	: grey
<b>Adhesion</b>	: good to glass, metals, plastics and painted surfaces
<b>Ageing</b>	: excellent
<b>Water absorption</b>	: negligible

---

## Technical data

- |                             |        |
|-----------------------------|--------|
| <b>Non-volatile content</b> | : 100% |
|-----------------------------|--------|
- **Penetration at 20°-26°C (300 gms cone)** : 8-10 mm.
  - **Resistance to temperature** : good in the range -20°C+70°C
  - Value valid as product supply specification upon leaving the factory

---

## Method of use

**Surface preparation:** the surfaces must be clean, dry and free from dust and grease

**Application of sealing strip:** remove the protection and cut the strip required. Owing to its plastic characteristics, the sealing strip can be easily moulded and used as filler of any dimension. The sealing strip should always remain under slight compression.

**Application temperature:** over + 10°C

## Technical Data Sheet

### Z. Strip SG/72 A

#### Storage stability

12 months from the date of manufacture if sealant is kept in the original sealed pack at a temperature under 25°C.

---

All recommendations relating to application and use of Fratelli Zucchini products have been given in good faith based on Fratelli Zucchini knowledge and experience, and for products appropriately stored, handled and applied in normal conditions, as indicated in their respective Technical Datasheet.

The variability of materials, substrates and conditions of use is such that no warranty of their functionality for a specific application can be deducted from this information, written recommendation or any other type of suggestion offered.

Each user has the responsibility to complete adequate evaluations on the efficacy of the materials offered by Fratelli Zucchini, of its products, services, recommendations and suggestions for the specific application need, and must accomplish sufficient testing to ascertain that the final product will be safe and sound for the final intent of the end-user.

Fratelli Zucchini cannot be considered liable for any damage, direct or indirect derived by a wrong or incorrect use of the products
