

3501/E

ADHESIVE FOR LINING AND CLOSING ROOM ASSEMBLIES

Description

3501/E is a natural rubber solvent based adhesive, suitable for bonding linings to uppers. Fast drying, non-aggressive to synthetic or leather finishes, permanently soft, does not modify the flexibility of the bonded materials

CHARACTERISTICS

Consistency	: natural rubber and blend of organic solvents
Mode of setting	: release of solvent
Colours	: opalescent clear
Solvents	: aliphatic hydrocarbons

TECHNICAL DATA

Solids content	: 9 - 13%
Viscosity	: 2500 - 5000 mPas (Brookfield spindle 4, spd 20, 25°C)

Values valid for product supply specification upon leaving the factory

METHOD OF USE

Application: apply by brush onto one or both parts to be joined. Place together immediately using a light pressure.

STORAGE STABILITY

12 months in the original sealed pack stored in a dry place at a temperature range +5°C+25°C.

All recommendations relating to the application and use of Fratelli Zucchini products have been given in good faith, based on the company's knowledge and experience. Products must be appropriately stored, handled and applied in normal conditions, as indicated on their respective Technical Datasheet. The variability of materials, substrates and conditions of use is such that no warranty of their functionality for a specific application can be deducted from this information, written recommendation or any other type of suggestion offered. Each user has the responsibility to make adequate evaluations on the efficacy of Fratelli Zucchini materials, products, services, recommendations and suggestions for the specific application required and must accomplish sufficient testing to ascertain that the final product will be safe and sound for the final purpose of the end-user. Fratelli Zucchini cannot be considered liable for any damage, direct or indirect derived from an incorrect use of the products
