

# ATTIVATORE VKD

## PRODUCT DESCRIPTION

Solventless polyisocyanate, vulcanizing agent for polyurethane adhesives in water dispersion.

Added at the rate of 3 - 5% by weight, it improves the adhesion onto many materials, heat stability and moisture resistance.

The product should be carefully dispersed in the adhesive using a mixer assembled on a rotating device at low speed (200 - 300 rpm) to avoid bubble and foam formation.

## PROPERTIES

**Composition:** solvent free aliphatic polyisocyanate

**Consistency:** liquid

**Colour:** pale yellow

**Solvents:** free

**Availability:** kg. 1 bottle

## STORAGE STABILITY

9 months if stored in the original container at a temperature lower than +35°C. Under 23°C the product can be opalescent and lightly thick.

The product is affected by moisture.
